

# Rapid scalability and control, we've got a cloud for that.

Q9 Private Cloud is different. Our private cloud services give you all the benefits you'd expect from a private cloud including superior control and performance, and some you don't, including rapid hardware scalability to match your cloud software's flexibility all in an enterprise grade, high availability cloud environment.

## TOTAL USER CONTROL

- Full control and management of resources through top rated<sup>1</sup> cloud software suite
- Truly private infrastructure – you control how resources are allocated – with no 'noisy' neighbours
- 100% Canadian data residency

## RAPID SCALABILITY

- Built on Q9's enterprise grade Elastic Infrastructure Service to allow underlying server and storage to scale with cloud applications
- Eliminates capital investment in infrastructure
- Each cluster is fully redundant and highly available by design and monitored by Q9's 7x24 control centre and spared onsite

<sup>1</sup> Gartner Research – Magic Quadrant for Integrated Systems, August 2015.

## Enterprise Cloud Computing Built & Operated by Q9

Q9 is Canada's Data Centre. We are the largest provider of data centre services in Canada with six data centres across the country. Our knowledge and experience have come from hundreds of client engagements across multiple industries. We are focused exclusively on high-availability data centre service.
